我們的故事

AOC 集團成立於 1978 年，總部設在美國洛杉磯，是美國當地具有領先地位的貨運代理之一。

美亞通物流有限公司於 2004 年在香港及深圳成立，為華南一級貨運代理。我們努力為中國客戶提供全球的 7x24 物流服務。除了標準運輸外，我們在客戶的需求基礎上，提供客製化的服務，務求將我們的優質服務延伸至您及您的客戶方，以達至三贏的互利益。

我們一向以客戶、員工和全球合作夥伴為我們的驕傲。我們致力於遵循國際標準來執行我們的物流服務，讓客戶可以以最低成本得到優質的服務。我們提供具有絕對安全性和靈活性的增值服務，以保持對客戶、員工和合作夥伴的滿意度。

我們熟悉深圳海關和當地政府部門的法規及運作，無論是出境或進口的貨運需求，都能夠為您量身定製，建立流暢的運輸管道。深圳和香港獨有的便利跨境運輸模式，成為華南的主要門戶。憑藉地理優勢，深圳和香港成為珠三角的心臟位置。美亞通能夠以最大的靈活性通過香港、澳門和廣州的跨境連接安排深圳與海外的進出口。

多模式聯運 Multimodal Transportation

中國內地作為世界工廠，每天有數以百噸的原材料、高科技電子產品以傳統模式及高昂的物流費用從香港空運至中國內地城市；**美亞通**早於2006年，利用深圳作為中國南大門的優勢，跳出傳統框架，在新的領域尋找發展，與**深圳航空公司**合作，創新發展「**一站式多式聯運**」，貨物由香港經深圳口岸清關，在深圳國際機場以國內航班或公路運輸的方式，送至內地保稅工廠或出口加工區；為廣大客戶提供實惠，而時效與香港直飛無異的創新運輸模式，深受歡迎。

安全可靠的服務

在嚴格的監督下提供優質的裝運服務，以確保工作人員安全及貨物完整

美亞通深知運輸的基本要求以及客戶的期望 - **安全可靠的服務**，使他們的商品從點到點的運輸完整無誤。

我們執行運輸服務時，不論裝運數量多少（即使量少如小紙箱、散裝貨物、打板貨件、空運箱或船櫃），都必以謹慎專業的態度去操作我們承運的每一票、每一件貨物。

為了給我們尊貴的客戶提供最大的利益，美亞通特地建立了一個 7x24 的專業團隊，適時提供任何需要加強貨物包裝的服務，包括添加拉伸膜包裝、加裝木板或組裝木箱，以提供額外的貨物保護，防止貨物因潮濕或碰撞而損壞。

Our Story

The **AOC Group** was founded in 1978, with its headquarters in Los Angeles. **AOC USA** is one of the city's leading intercontinental freight forwarding industry service providers.

AOC China Limited was established in 2004 as a Class-A freight forwarding agent in Shenzhen, Southern China. We endeavored to provide full-range logistic services in Mainland China. Apart from providing standard transportation services, we offer tailored-made services based on the needs of our customers, and extend our high-quality services to you and your end customers to achieve the mutual benefit of win-win.

At **AOC**, we take pride in our customers, employees, and global partners. We are committed to provide value-added services so that customers can enjoy excellent services at the lowest cost, and to follow international standards to carry out our logistics services with absolute security and flexibility to maintain the satisfaction of all stakeholders.

We are familiar with the regulations and operations of Shenzhen Customs and government authorities. We can assist in problem-solving, designing, and planning comprehensive solutions tailor-made to your shipments, both inbound and outbound, in China.

AOC is located in the heart of South China. Gifted with such a geographical advantage, we are capable of handling all import and export shipments with maximal flexibility between Shenzhen, Hong Kong, Guangzhou, and Macau.

Multimodal Transportation

Mainland China, being the world's mega factory, has hundreds of tons of raw materials and high-tech electronic products shipped from Hong Kong to cities in mainland China every day using traditional methods and high logistics costs. As early as 2006, **AOC** took the advantage of Shenzhen as the southern gate of China. Breaking out of the traditional framework and looking for development in new fields, we cooperate with **Shenzhen Airlines** to innovatively develop "**One-Stop Multimodal Transport**". The goods from Hong Kong are cleared through the Shenzhen customs gateway, and are delivered through the Shenzhen International Airport by domestic flights or road transport to the bonded factories or export processing zones in the Mainland; it provides customers with cost benefits and is an innovative transportation mode with the same timeliness as direct flights from Hong Kong. It's widely appreciated

Safety and Reliability

To provide quality shipping services under strict supervision to ensure the safety of personnel and the integrity of goods

AOC is well aware of the transportation requirements and the expectations of the customers - Safety and Reliability Services – to have their merchandise transported from end to end without any discrepancy.

When we perform transportation services, regardless of the shipment quantity (i.e., even small cartons, bulk cargo, palletized shipments, air boxes, or shipping containers), every single piece of shipment in our custody will be handled in a careful and professional manner.

For the greatest benefit of our valued customers, **AOC** has specially established a 24x7 team to provide timely services that require strengthened packaging of goods, including adding shrink-wrap, wooden planks, or assembling wooden cases, to provide sufficient cargo protection against damage during the transportation.
